

# Transferring Funds

Use these instructions to transfer funds from one account to another.

1. Open the app menu and tap **Transfer**.

2. Tap **Start a New Transfer**.

3. Answer the security question and tap **Submit**.

Not all financial institutions require you to use security questions. If you do not have security questions, skip this step.

The screenshot shows a mobile application interface for a transfer. At the top, there is a blue header with the word "Transfer" on the left and "Cancel" on the right. Below the header, the text "Security Question" is displayed. Underneath, a message reads: "For security purposes, please confirm your identity by answer the following verification question." The question is "What is the name of your first pet?". Below the question is an input field with the label "ANSWER:" on the left and "Enter Answer" on the right. A "Submit" button is located below the input field, highlighted with a red border. The background of the screen features a large, faint circular graphic with two curved arrows forming a loop.

4. Tap the account you want to transfer funds from, and then tap an account for the destination.

The screenshot shows the "From Account..." selection screen. It has a blue header with "Transfer" and "Cancel". Below the header, the text "From Account..." is displayed. There are two account options listed: "Your Checking" and "Your Savings".

The screenshot shows the "To Account..." selection screen. It has a blue header with "Transfer" and "Cancel". Below the header, the text "To Account..." is displayed. There are two account options listed: "Your Mortgage" and "Your Savings".

5. Enter the transfer amount in the **Amount** field.

Use **Quick Amounts** to make quick transfers without typing.
