Samsung Pay Setup Instructions

1 From the Home screen, touch **Apps** ▦.

2 Touch **Samsung Pay** [pay].

3 Touch **ADD** or, if this is the first payment card being added, touch **Add a credit or debit card**.

4 Align your card inside the frame to automatically detect the card
   number and expiration date.

   Note: Touch **Enter card manually** if your device cannot detect
   the card information.

5 Enter the remaining information and touch **NEXT**.

Samsung Pay Setup Instructions

6 If requested, enter your billing address and touch **SAVE**.

7 Review the terms and conditions, and then touch **AGREE TO ALL**.

Samsung Pay Setup Instructions

8 If necessary, select a method to authenticate your identity using a one-time password .

Samsung Pay Setup Instructions

9 Enter the one-time password and touch **SUBMIT**.

Samsung Pay Setup Instructions

10   Touch **DONE** to complete the process.

Samsung Pay Setup Instructions

11   After your card is added to Samsung Pay, it will be verified by the payment card network (i.e., Visa, MasterCard, or American Express) and the card issuer (e.g., Bank of America, Citibank, or U.S. Bank). On average, verification will take approximately 5 to 10 minutes. During that time, you will be unable to use your card in Samsung Pay.

12   **Note**: You can continue to add cards while others are being verified.

13   After the card is verified, it can be used immediately to make a purchase.
